### HEAVY DUTY GAUGE

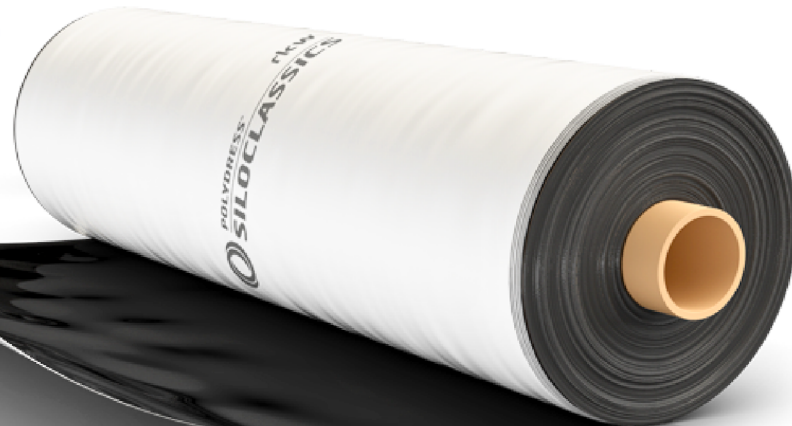

UV stabilised, puncture proof, Built tough for Australian Conditions.

**Silage™**  
FORMULA

**rkW**  
WHEN EXCELLENCE  
MATTERS

Silage Formula™ product is a high grade co-extruded polyethylene film. The core of the film's strength lies in its multi-layer extrusion technology which bonds 3 layers of polymer into one high strength film. Silage Formula™ product incorporates premium German manufactured plastic tailored for Australian conditions along with the most sustainable and effective UV stabilisers available.

Our product technology, combined with our fabrication and manufacturing process, is designed to provide the maximum protection possible for your silage bunkers & pits, assisting in the optimisation of your silage fermentation process and the paramount prevention of punctures, tears and spoilage.
